

QUALITY POLICY

The General Management of AUTOMATIZACIONES SIMAC S.L., aware of the importance that the execution of its activities has on the satisfaction of its customers, develops its activity trying to offer a quality service in a safe environment for its workers. For which it has established the following Policy based on the following principles:

- Carry out the activities with the aim of developing and obtaining results that achieve the full satisfaction of the expectations and needs of the clients to whom they are destined, based on the quality of their products, the service provided and compliance with the established requirements.
- Raise awareness and hold all AUTOMATIZACIONES SIMAC S.L. personnel responsible of the importance of their activities and how they contribute to the development and execution of them, as well as in the service provided to their clients; stimulating staff to contribute ideas and solutions that improve the execution of their tasks.
- Achieve and maintain working conditions as safe as possible for staff members.
- Maintain the commitment of the Management with continuous improvement, favoring the motivation, creativity and teamwork of employees; in order to encourage their participation in any aspect that can improve the Quality Management System.
- Comply with all legal and regulatory requirements, as well as those that AUTOMATIZACIONES SIMAC S.L. can subscribe
- Provide and promote quality training, in order to improve the quality of our processes.

To comply with all of the above, the collaboration of each and every one of the people who make up AUTOMATIZACIONES SIMAC S.L. is essential. In this way it will be possible to continuously improve to provide an excellent service.
